## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 2-7 are objected to because of the following informalities: In a process claim should include steps for performing the functions in the process. Therefore, the word “presenting” should be added before “similarly shaped ...fusible stimuli” (claim 2, lines 2, 4) to prevent the 112 problem because of lacking the steps in a process claim. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase “the upright and inverted positions” (claim 1, line 1) has no antecedent basis. The limitations “the relative brightness of left and right sides” (claim 1, line 6) and “images” (claim 1, line 9) are undefined. Does the applicant refer “the lighting” in the phrases “the on and off rate of the lighting and the period of the lighting” (claim 1, lines 7-8) to the lighting in the front chamber, in the rear chamber or in both? The structure of the invention in claim 8 is undefined clearly. The phrase “the same interocular brightness difference.” (claim 8, line 3) has no antecedent basis. The feature “the sides of the lenses” is undefined. The limitations “means of ... reversing the sides of said lenses” are indefinite. Which element performs the function of maintaining the same interocular brightness difference in claim 8?

*Allowable Subject Matter*

4. Claims 1 and 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. Claims 2-7 would be allowed if the applicant overcomes the objection as discussed above.
